

# Position Description

Vacancy Title: Light Vehicle Workshop Senior Technician/Supervisor

Location:

### Objective

This role ensures that workshop operations are led effectively, and technical expertise is applied across a diverse fleet of light vehicles, diesel engines, and mechanical assets. The role is critical to maintaining service quality, equipment uptime, staff development, and compliance with safety and technical standards.

#### Outcomes

### **Organisational Stakeholders**

#### 1. Technical Maintenance and Repairs Are Delivered to Standard

- Light vehicles, diesel trucks, forklifts, and generators are serviced and repaired in line with manufacturer specifications.
- Diagnostic procedures are conducted using appropriate tools and equipment.
- · Preventive maintenance schedules are implemented and adhered to.
- Faults and defects are accurately identified, and corrective actions are executed.
- Service records and technical documentation are updated and maintained.

#### 2. Workshop Team Is Supervised and Supported

- Technicians and apprentices are mentored, supported, and performance managed.
- Daily work plans and task allocations are organised to ensure timely completion.
- Technical training and upskilling of team members are delivered as required.
- Staff adherence to quality, technical, and safety standards is monitored and enforced.
- · A team culture of accountability, communication, and continuous improvement is fostered.

#### 3. Quality Control and Safety Compliance Are Maintained

- Workplace health and safety regulations are implemented and observed across all workshop activities.
- Safety briefings, tool box talks, and hazard identification processes are facilitated.
- Hazardous materials are handled and disposed of in line with environmental standards.
- Workshop certifications and safety documentation are monitored and updated.
- Compliance gaps are identified and corrective actions are undertaken.

### 4. Administrative and Customer-Facing Functions Are Completed

- Work estimates, job cards, and service quotes are prepared and submitted accurately.
- Spare parts inventory is monitored and replenished in coordination with suppliers.
- · Workshop tools and assets are maintained and calibrated where required.
- Reports on workshop output, staff performance, and asset utilisation are compiled.
- Customer concerns and technical queries are responded to in a professional manner.

Work in a team towards a common aim.

### F

**Team Orientation** 

Facilitation
